**Subject:** Occupying TD Space this week

Hi Ben,

As you know, I will be occupying the TD space this week through midday Thursday, January 12<sup>th</sup>. During my time in the area I plan to briefly visit with the two home owners in Spanish Village and provide to them copies of the field sheets and Chain of Custody (CoC) forms associated with the sampling event conducted in late December. Please find attached two PDF files that contain copies of the field sheets that we intend to pass along to the home owners. Tom is working on getting me the signed COC forms and I will share those with you too, when available.

Please also be aware that some personal information is included in on the PDF files. Some redaction will need to occur before this information is released or otherwise made publically available . I plan to discuss this effort further with Lynn - later today. I will also plan to discuss this effort with you further - before meeting with the home owners.

Thanks,

*Justin L. Barker*
